2024 Education Prospectus

Environmental & Sustainability Education for
tamariki and rangatahi in South & East Auckland

Foreword

When I was a child, life was exciting and carefree. I would spend all my time outdoors; swimming, riding my bike till the sun set and of course exploring nature at all costs. With only a household landline phone, life felt simple, safe, and ultimately full of wonder.

Today's kids exist in a hyper-connected world full of different wonders. They are part of global social networks powered by ultra-fast internet, and experience a vast world beyond just their physical surroundings. Their interests and concerns are expansive. More than ever, children are tuned into social justice, environmentalism and equality. Amid the pressures of climate catastrophe, children are becoming astoundingly influential and prising open opportunities towards a more just and sustainable future.

Our primary responsibility as adults, now, is to guide our rangatahi and tamariki to become connected, compassionate, creative, thoughtful, tenacious individuals who care deeply for the environment and people around them.

The Beautification Trust is a social enterprise on a mission to connect and empower communities to learn, love and look after our environment. One of our key impact focus areas is teaching and facilitating environmental and sustainability education in South & East Auckland.

We believe in a future where all people value nature, and this starts with inspiring the hearts and minds of our young people. We want to empower tamariki and rangatahi to become environmental heroes of the future.

Our programmes offer unique opportunities for young people to connect with local places, understand environmental issues and put their knowledge and creativity into practical action.

Each programme is free of charge for schools and students, as we believe all children should have access to environmental and sustainability education.

We look forward to helping you deliver incredible, unique and exciting experiences for your tamariki and rangatahi in 2024. Our team is here to help, so if you have any questions about our programmes or how we can work together, please feel free to reach out.

Although we think of ourselves as teachers, we have a lot to learn from the tenacity and creativity of our young people. Children are organising themselves as agents of change. Our role is to nurture their passion and give them the tools to make a lasting impact.

Eye on Nature School Days

**Monday 18 - Thursday 21 March 2024,
Auckland Botanic Gardens**

Nearly 1,500 primary students are invited to Auckland Botanic Gardens to learn from environmental experts and apply their knowledge with ongoing sustainable activities.

Eye on Nature School Days are completely free of charge for schools. To ensure equitable access, transport to and from the event by bus is provided at no cost to schools or students.

This free event encourages tamariki to connect with the environment and learn how to be more sustainable in everyday life.

| Cost | Year level | Project timeframe |
|-------------|-------------------|--------------------------|
| Free | Years 5 & 6 | One day |

Why Eye on Nature School Days?

Environmental Education

Students explore the Eye on Nature theme with hands-on, interactive learning experiences

Education outside the classroom

Tamariki build a connection with nature, gain context for their learning and have a memorable experience

Expert education partners

Partners like Auckland Museum and Sustainable Schools deliver engaging experiences for tamariki

Equity

Participation is free of charge, including bus transport to and from the Auckland Botanic Gardens

Watch: Eye on Nature School Days 2023

Eye on Nature Wearable Arts

**Wednesday 12 & Thursday 13 June 2024,
Due Drop Events Centre**

In this annual competition, students are challenged to create eco-friendly wearable art. As well as originality and effort, the creations are judged on the interpretation of the theme, use of sustainable materials, creative re-purposing of waste materials and the impact the garments have on the environment.

The garments are judged and \$3,700 in prizes are awarded at the Eye on Nature Wearable Arts Fashion Show. Students get the exhilarating experience of modelling their eco-friendly creations on a professional fashion runway in front of a live audience.

| Cost | Year level | Project timeframe |
|-------------|-------------------|--------------------------|
| Free | Years 1 - 13 | Term 1 & 2 |

Why Wearable Arts?

Environmental Education

Students explore the Eye on Nature theme, as well as the impacts of fashion on the environment

Project-based learning

Students develop multiple skills including teamwork, design, construction, project management, meeting a brief, sourcing materials and much more

Creativity

The creative interpretation of the theme is key to producing a winning a Wearable Arts garment

Equity

Participation is free of charge for schools and students

In-school workshops

Free workshops with our Community Educator offered to all participating schools

Eye on Nature Creative Arts

Saturday 28 September - Sunday 13 October 2024, Auckland Botanic Gardens

Kindergarten and primary school students are challenged to create original artwork using sustainable materials and re-purposed waste. It's all about teaching tamariki to love the environment and live more sustainably in a fun and creative way!

The winning schools and kindergartens are awarded cash prizes, with a total prize pool worth \$2,550. All the entered artworks will be displayed at a free exhibition at the Auckland Botanic Gardens throughout the September/October school holidays, where the public can vote on their favourites for the People's Choice Award.

| Cost | Year level | Project timeframe |
|------|-----------------------|-------------------|
| Free | Kindergarten - Year 8 | Term 3 |

Why Creative Arts?

Environmental Education

Students explore the Eye on Nature theme and creatively interpret their learning through art

Project-based learning

Students develop multiple skills including teamwork, design, construction, project management, meeting a brief, sourcing materials and much more

Creativity

The creative interpretation of the theme is key to producing a winning artwork

Equity

Participation is free of charge for schools and students

In-school workshops

Free workshops with our Community Educator offered to all participating schools

Adopt a Park

Schools take ownership of their local park

In partnership with Auckland Council Parks, we lead the Adopt a Park programme to South Auckland primary and secondary school aakonga/students.

Working together with

With our team, tamariki and rangatahi learn through interactive experiences on site and participate in environmental activities such as planting, pest monitoring and trapping, water testing, weed identification and removal, litter clean-ups, and learning more about our native biodiversity whilst immersed in nature.

Schools are encouraged to engage with this programme throughout the school year, offering great opportunities to learn about seasonal environmental indicators.

| Cost | Year level | Project timeframe |
|------|--------------|-------------------|
| Free | Years 1 - 13 | All year |

Community & Project Support

We empower schools to lead their own projects by offering a range of support options. For further guidance and free resources, check out our [Seven Steps for Running Your Own Environmental or Beautification Project](#).

Tiaki Fund

Get a funding grant towards the cost of your school's environmental or beautification project.

Community Tool Library

Borrow tools free of charge for your school's environmental or beautification project.

Creator Space

Free community space for hire with a meeting room and workshop. This is a great space for rangatahi to collaborate and work on their own projects.

In-School Workshops

Deep Dive into Your Local Environment

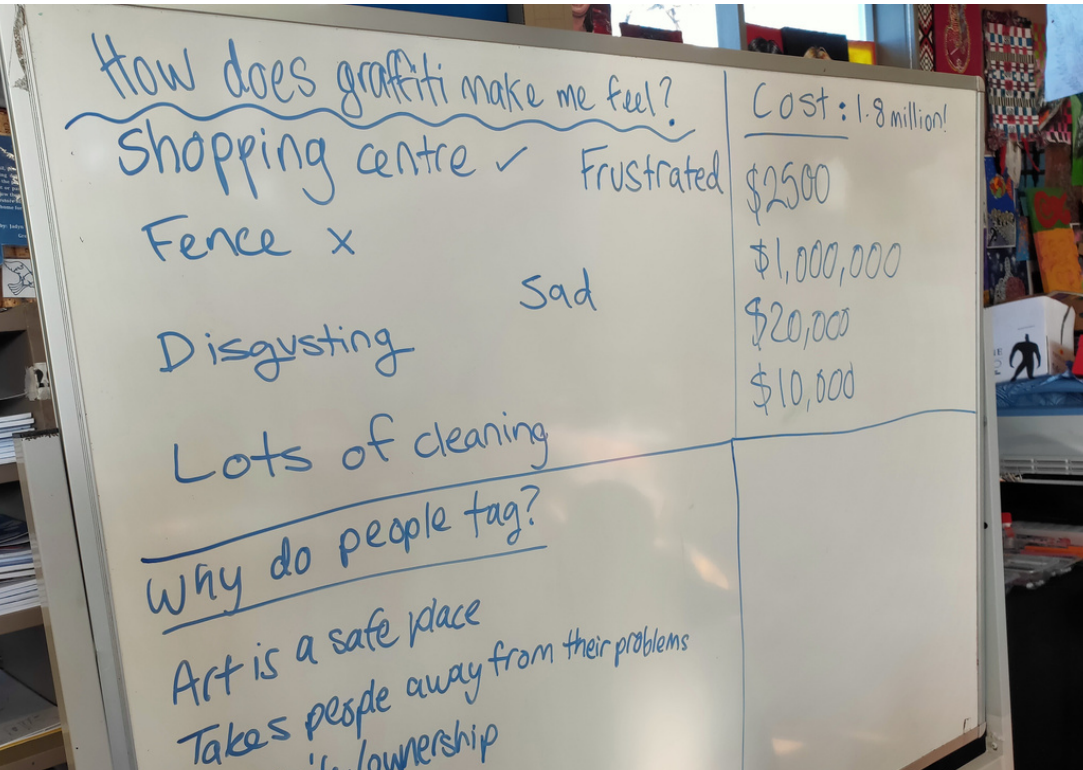

Our in-school workshops cover your choice of four environmental topics for 60-90 minutes.

- 1. Waste Management:** Students get up-to-date information on recycling and waste reduction, plus tools for community engagement and support for local litter clean-ups.
- 2. Water Pollution:** Explores the difference between wastewater and storm water, and how to test the health of nearby streams, helping students understand the impact of land practices on waterways.
- 3. Seashore & Marine:** Immerses students in the marine world, focusing on New Zealand's unique sea creatures and human impacts on our oceans.
- 4. New Zealand Conservation:** Introduces students to our country's biodiversity and ongoing conservation efforts, serving as a perfect primer for joining the Adopt a Park programme.

| Cost | Year level | Project timeframe |
|------|--------------|-------------------|
| Free | Years 1 - 13 | All year |

Graffiti Prevention & Murals

We hold in-school workshops for tamariki and rangatahi, exploring what graffiti vandalism is, why it happens, how it impacts their community and how they can help prevent it.

As part of our education programme, we also work with schools to create their own beautiful community murals. Collaborating with local artists, students work together to create their own artwork concepts and bring them to life. Our mural programme helps channel creative expression in a positive way, while giving students a sense of pride and belonging in their community.

| Cost | Year level | Project timeframe |
|------|------------|-------------------|
| Free | All | Any |

Site tours

Interactive climate and zero waste education workshops

We welcome classes of tamariki and rangatahi to join us for interactive tours and workshops at our Manurewa hub. They'll learn about simple actions they can take every day to reduce their climate impact and live more sustainably.

Throughout the day, aakonga will learn about kai, transport and the circular economy through hands-on experiences, including a site tour of our Community Recycling Centre.

| Cost | Year level | Project timeframe |
|------|--------------|-------------------|
| Free | Years 1 - 13 | One day |

**Beautification
Trust** Connecting and
Empowering Communities

About Us

Beautification Trust

OUR VISION

Inspire communities to love and respect the environment.

OUR MISSION

Connect and empower communities to learn, love and look after our environment.

OUR VALUES

Kaitiakitanga

We are guardians, protecting and keeping safe what we have been entrusted.

Community (hapori)

We collaborate, working together to empower our community.
